Hey all! We are a 4 piece pop rock band from green. We've recorded an EP in Nashville with 1092 studios. We write our own stuff and do a couple covers. We have merch and pro equipment and a place to jam. We are headed out on tour at the end of May and getting things ready. We are llc'd meaning our band is not just a hobby but a business so we are very serious about music. We need someone to fill our drum spot. You can check us out on iTunes, spotify, and google play. We are not egotistical, dramatic, or dictating. Just friends having fun and doing what we love while making some cash.

If you like... All time low, the story so far, neck deep, fall out boy, blink 182, senses fail, a day to remember, paramore, Silverstein, set your goals, new found glory, sleeping with sirens, marianas trench, panic at the disco, falling in reverse and stuff like that you're qualified..
