## Metal 8 string guitar player available, djent, metalcore (Seven Hills)

Location Ohio https://www.genclassifieds.com/x-372994-z

I am a seasoned and experienced metal guitar player (I also play bass). I primarily play 8 string guitars nowadays. I tune my guitars in F-Bb-Eb-Ab-Db-Gb-Bb-Eb and D-A-D-G-C-F-A-D but willing to consider other tunings. My current musical projects aren't fulfilling my creative desire to make heavy ass, sick as fuck metal music. I am looking for an established project or I am willing to put something together with serious, like minded musicians. I am available to practice during the week after 5pm and weekends after 1pm. There is no limit to the amount of time I am willing to commit to a project. I have a studio in my house, hence I have a place to practice, but willing to hump my gear if necessary. I am into Meshuggah, Bermuda, Attila, Emmure, Black Tongue, Volumes, Omega Diatribe, Hacktivist, etc and the stuff I am writing recently is in the line of Emmure and Attila as far a riffs. I am a riff machine and can pick up a guitar and write heavy ass riffs like it's nothing, I am never for a lack of ideas. I also understand marketing and the business side of being in a band and bring that knowledge to the table. I attached a recent pic of myself with some of my weapons of mass creation, so you can see I mean business. I have no drinking or drug problems. If you want to talk just email me and I will get back to you asap. I am VERY SERIOUS, please be of the same.
