Call Scott

Hi, my name is Scott and I specialize in installing flat screen televisions to walls, above fireplaces, or just hooking up all the components for a TV that just sits on a stand. There are two types of wall mounts that can be used the basic tilting and full motion. With a full motion mount the TV can be moved around depending on where you are sitting in the room. My customers can either purchase the mount they want or I can provide one at cost.

There are lots of other things I can do such as install shelves for your components like you see in the photos below, hook up sound bars and surround sound systems, and run the cables inside of the wall for a clean and professional look. I charge alot less than the Best Buys and warranty my work. Please give me a call and I will answer any questions you have.
