Email or Call (NO TEXTS-VOICE LINE ONLY-I CANNOT GET TEXT MESSAGES SO DO NOT WASTE YOUR TIME!!!). Click Contact for Phone Number or Email. Ad is up, I still HAVE the item so do not waste your time or mine asking me if I still have the item as I do still have it. I do not ship or deliver. Cash sale only. MAP tells you where I am located.

I no longer need these as I am cutting back on my gear hence my reason for selling these tripods.

Made in the USA!

Model DG/H4 Spring Loaded Professional Tripod-Cost \$289
 Selling for \$125

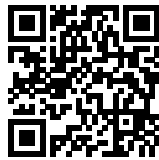

Davis & Sanford DG-H4 still has many features that make it a solid fit for either amateur or professional videographers. The primary feature that sets this aluminum tripod apart from tripods designed for still photography is the handle that allows for two-way panning across a scene or landscape. For more complicated filming, this Davis & Sanford tripod can, once the rubber feet are removed, fit into a dolly for moving shots. The Davis & Sanford DG-H4 is also very sturdy and is built to handle heavy duty filming, which means that it can handle the weight of more complex camera. Even though this Davis & Sanford tripod is designed for strength, it is also highly portable and can be folded up and carried around easily. This aluminum tripod is also very lightweight, further enhancing portability. For anyone who want a less

expensive way to film video smoothly and comfortably, this Davis & Sanford tripod is a solid fit.

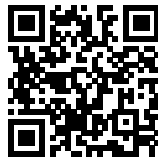

Price range \$125-\$260 26-inch height to about 6 feet maximum
 New Spring Loaded Wheeler Tripod SRP \$300
 Selling for \$160
 Camera tripod with caster wheels for mobility and a "spring" head for great stability! Could be used for Video/Film Camera/Field Camera/Medium - Large Format Cameras/etc! It is very heavy-duty aluminum, but not overly heavy to carry. Tripod legs are LONG 48" that further extends out to about 70-72"! Great for studios.
