What we have here is a 1967 BSA Royal Star motor in a 1966 Wasp frame. It is titled as a 1967. This is a very nice bike that has been gone over. The motor has been rebuilt to stock specs. It has a new Boyer ignition and a Mighty Max box. There is a new reproduction Amal carb on the bike. It has been totally rewired and has been very reliable. The bike has new tires, battery, oil lines, and cables. There is a new reproduction "Bumstop" seat on the bike and a new reproduction Smiths speedometer. It has new Cerani forks and CST adjustable rear shocks on it. I am sure there are some other things that I am forgetting. This bike runs great and I would ride it anywhere. I want \$3000.00 for it. Interested parties can contact me by phone at

My name is Craig. Do not E-mail me. This is not my computer. DO NOT TEXT ME! Texts will be ignored. Thanks to all for your.
