osa with junebugs rescue who is now pending 501

I cant believe we still have osa. she is such an awesome dog. she is 6 years old and 100% blind but get around very well. loves to chew on her rawhides. she is 100% housebroken, wonderful with kids and good with other dogs. she knows how to sit and she walks well on the leash and she rides great in the car. she came to us emaciated weighing 27 pounds. she is now almost 40 and at her full weight. she has completed hw treatment and she takes inexpensive eye meds once a day to keep the pressure off her eyes as she has glaucoma. meds cost \$30 and last almost 2 months

adoption fee is \$100 but negotiable to a good home. we already have spent \$700 on her and will be spending another \$500 for her treatment she also has had all her shots, spayed and is microchipped and will come with a collar and leash
