

Dick Van Dyke beautiful large tabby needs a family (north fort worth)

Location **Texas**
<https://www.genclassifieds.com/x-373350-z>

dick van dyke is a beautiful boy. he is FIV positive but these guys can live for years with that with no issues. he has an FIV positive friend now and he really seems to like her. he is good with kids and is about 2 years old. he is neutered, all shots, microchipped and comes with a collar and kennel adoption fee is \$75

these guys can also live with felv/aids negative cats as well as it is only transmitted through a deep bite and it is very hard for it to transmit between cats. he is awesome with other cats
