I am subletting a studio apartment for June, July, and August. This place is perfect for a professor or student staying in Middlebury for the summer. The space consists of a large studio room with a bathroom and small kitchen. The building consists only of this space and the quiet frameshop below. Perfect location in town off the main road. Everything is included in the monthly payment except for internet/cable and garbage removal. The space will be furnished with the essentials including a full size bed, a counter in the kitchen, and cushions for the window
