

# Restaurant customerfront line and more... (Aberdeen)

Location **South Dakota**  
<https://www.genclassifieds.com/x-373761-z>

We purchased this equipment, wall (line), and smallwares from a sandwich shop that closed and it has been in storage for about three years. We have \$17,900 invested and are selling this as a package and will look at offers. If you are starting a quick-serve or fast casual restaurant, a convenience store that has food service, or starting a bakery/sandwich shop this would be a nice set-up pretty much ready to go. The line is already configured with conduit and electrical outlets (see pictures) so you can just bolt it down, power it and go. I have individual pictures of each piece of the wall and can send those as well as pictures of the four benches and swinging half door to enter the line. The wall construction is definitely commercial - very heavy. The condiment and soda station are shown without the doors but we do have the doors. There is a lot in this package but I may be able to arrange delivery to help. See complete list below.

Please call, text, or email with questions, to set up a viewing, or to request more pictures. We are motivated to move this package. Thank you. Scott (AZ cell but in Aberdeen).

Equipment  
 Prep table (60")  
 Toaster oven with approximately 24' of duct work  
 Building exhaust fan
