

Sulcata Tortoise in need of new home ASAP (Camden)

Location **South Carolina**
<https://www.genclassifieds.com/x-373777-z>

Young sulcata tortoise. Not sure of his/her age.
Moving and cannot take him with me.

Please do not consider a pet like this without doing the research, he will get BIG. His previous owner did not feed him correctly and I am working on getting him on his proper diet of grasses.

His rehoming fee is \$200 to include the tortoise

- 40g tank with sliding lock lid
- wooden house
- feeding dish and soaking bowl
- large tote thing for outdoor adventures
- several gallon size bags of orchard grass
- container of zoomed grass pellets
- UVB bulb & fixture
- 100w ceramic heat emitter & fixture
- Trial size calcium powder
- Lazer heat Ptouch thermometer
- Misting bottle

His substrate is coconut fiber, but needs to be changed, so that is not included. He has never bitten anyone, and he loves to go outside in the sunshine, and he loves to be soaked!

Please do not contact me unless you have experience with these guys, they are not for beginners. I

really care about this little fellow, and did not plan on having to rehome him. He really needs to go to the right home. \$200, but is reasonable. If anyone is interested, please contact me.
