I am in need of some yard work and mulching, send me your quote.

1. I have pulled the weeds from one area for an example. There are 3 large areas that need all of the weeds pulled up.
2. There are 3 bushes that need to be trimmed way down.
3. The 3 big areas and 2 small areas need mulched. There is a mulch place about 6 minutes away where you can pick up the mulch (I'll pay for the mulch). It will take two trips of 2 scoops to do all of the area.
4. The trimmings and weeds should be taken away.

Here are photos of everything:
