I'm selling my brand new 55 gallon aquarium with multiple accessories. I purchased the set up last year with the intention of starting a saltwater aquarium. However, life got in the way and I never had a chance to even fill the tank. Everything you are purchasing is brand new and has never been used.

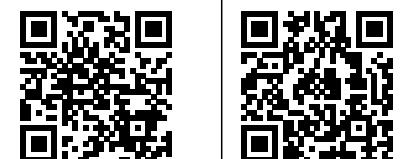

What you get: a 55 gallon aquarium with stand, glass top, lights, submersible thermometer, bag of salt water salt, magnetic glass cleaner, and an Eheim canister filter.

I am asking \$350 for the whole setup. I paid \$400 for the tank alone. You are getting \$600 worth of product for \$350.

Pick up near 35th &.
