

Missing Stolen Shiba Inu dog (like small Husky) (.. USD)

Location **Wyoming**
<https://www.genclassifieds.com/x-374036-z>

March 2015 - We are going on 2 years since our dog was stolen from our farm, and he is now 6 years old. We would like to express our thanks to all who have notified us of possible sightings. Please be very diligent in watching for him, and don't hesitate to let us know of future possible sightings. Someone knows where he is, and we are confident that an honest person will help him to get back home.

He did not have a micro chip when he disappeared, but in the time he has been missing, someone could have had him chipped. Just because someone has the registration to a chip in a dog, does not necessarily mean that they are the owner of the dog.

Thank you for your help.

We have lost a 5 year old male black, white, and tan Shiba Inu dog. He was lost between Atwood and Merino, Colorado on 9/28/13. He is about 18 inches tall at his shoulder and weighs 40 lbs. He was wearing a silver chain collar with blue vet tag from Robinette vet clinic in Brush, Colo. when he disappeared. We are offering a "Reward" for his safe return. Please contact me if you have any information concerning.
