Hey tummy drugstore cowboy (aka mr. onefinger). I use no capitals in your moniker since you deserve no respect even though you think you do. Looks to me like you ran with my idea of you going country (whatever the hell that is nowadays) and hooking up with TS. You do realize, you ignoramus, that TS is no longer country... she's a pop head. (and no, not a disgusting pimple, as I'm sure you would reply to that remark in such a childlike way as you normally do.) And beyond that, as I predicted a few years back, she is on her way of becoming the Brittany Spears of cuntry music. Good for a laugh doncha think?

Anywho... you need to be more original in your remaking of yourself from the punk that you are, to whatever it is you wanna be. That's it! You can become b. wannabe! Better yet, how about mr. hasbeen. Either way, as you can see, you still deserve no repect.

Write if you dare and I'll sell you my book, "How to Become a Repectable Person". It's an easy read... only 240.
