

# Rank higher on Google with an SEO expert (Wisconsin)

Location

**Wisconsin**

<https://www.genclassifieds.com/x-374081-z>

Rank higher on Google, Yahoo and Bing!

I am a professional software developer with over 10 years of commercial website development and Search Engine Optimization (SEO) experience. Dealing with websites all over the world in a reliable, responsive and personal manner.

Contact me for more information, a list of my past projects and a quote based on what you would like to achieve.

Some of the things I provide for SEO:

Website code optimization

Highlight coding techniques that can affect the way search engines view your site. For example, by the use of:

- \* Alt tags
- \* Meta data
- \* Title relevancy
- \* W3C compliance
- \* Keyword density

\* Robot files  
\* Site Maps  
\* Rich Snippets  
\* Google Analytics  
\* Google AdWords  
and much more...

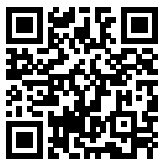

Competitor Analysis

Competitors are assessed in search engine results and analyzed

---

A range of SEO tools are used to monitor, analyze and optimize keywords to determine the following factors:

- \* Keyword prominence
- \* Keyword density
- \* Keyword placement
- \* Keyword geographies
- \* Keyword spamming

Off-page optimization

One of the most significant principles in SEO is how search engines view your site. The following techniques are used to dramatically increase your sites exposure.

- \* Directory submission
- \* Search engine submission - to over 30 search engines
- \* Link building
- \* Google ranking score analysis

Schedule

Search engines generally index sites within 30-45 days from initial submission and some optimizations can take up to 2+ months to take effect. Reports can be provided as required but generally I provide a detailed initial report and then monthly keyword performance reports.
