Thank you
TRAINING AND CERTIFICATION
 Training consists of a two day program designed to give every student comprehensive theory along with hands on experience.

Day One: Theory and Product Knowledge

1) Students receive training manual.

2) Discuss lash products: different textures, shapes, length, width of lashes and tools.
 Students will feel and see the difference with samples and with the difference
 between types, long and short and curved styles. Discuss a full set and how
 to apply the tools in the body needed.
