We are the Plumbing & Septic Professionals the Southside turns to when Quality, Service and Dependability counts!

We will come out and diagnose any problems, determine a corrective action and give you your options for a permanent solution.

These are some of the signs that you may have a septic system that needs immediate service BEFORE it backs up in the house or yard.

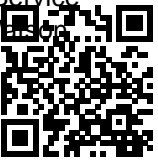

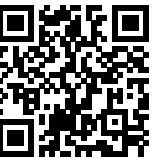

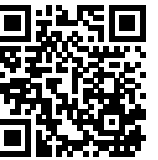

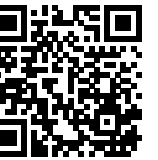

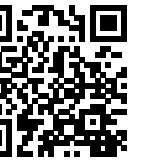

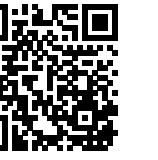

- Do you have toilets and tubs that drain slowly and gurgle?
- Are there wet or spongy areas around the septic tank or drain field?
- Is there excessively green grass near your septic system?
- Have you noticed bad odors in your yard and home?

We will be on time, answer all of your questions, give you a written quote and respect you and your home. You can count on that.

Call us now to have one of our skilled and experienced technicians accurately assess your septic and plumbing problems today.
