(CNN)Hey, look what I did. That small boast on social media can trigger a whirlwind that spins into real-life grief, as a Texas veterinarian found out after shooting a cat.

Dr. Kristen Lindsey allegedly shot an arrow into the back of an orange tabby's head and posted a proud photo this week on Facebook of herself smiling, as she dangled its limp body by the arrow's shaft.

Lindsey added a comment, CNN affiliate KBTX reported. "My first bow kill, lol. The only good feral tomcat is one with an arrow through it's head! Vet of the year award ... Gladly accepted."
