I was given a female husky 3 to 4 years ago give or take. She's beautiful and very loving however she doesn't like my smaller dogs and feels the need to attack them when she gets the chance. I named her Katan and would be a perfect fit for any family who doesn't have small dogs. She's been around my 3 kids two are 12 and one's 5 she loves my kids. I will be very picky on who she goes to but if you're interested please contact me and we can set something.
