Vintage 1970s Taiyo Japanese Tinplate Rusher Ford Mustang Mach 1 (75 USD)

Alaska Location https://www.genclassifieds.com/x-374723-z

These don't come around everyday. I bought this about 8 years ago with no guarantee it would work, I tested it and did get the flashing lights to come on, but nothing on the bump and go action, I set it aside to dig into further to see if I could get it working, but never got around to it. The cosmetic condition of the car is very, very good and displays nicely, always a focal point of my collection. It does have the original box, but sadly is not in as good condition as the car. Great display piece, or restore it. A true Mustang collectors find.
