Solid oak cabinet constructed in 1916 in Brattleboro Vermont. It is 100% oak, even the drawer dividers are oak. This is a substantial piece of furniture. Not sure of its original use. The three drawers and the two cabinet drawers have locks (one lock is missing on one cabinet door). Someone had previously painted the piece brown and so it was very dark and you couldn't see the oak wood grain. The top and drawer faces were sanded to remove the old paint and new hardware has been added. The rest of it is painted a cream color. It is 41 inches tall, 26 inches wide and 22 inches deep.
