

Cypress Fernspray Trees (Manassas)

Location **Washington**
<https://www.genclassifieds.com/x-374827-z>

Chamaecyparis Obtusa "Filicoides" trees free to good home. Also called Cypress Fernspray. They are beautiful trees but planted too close to my house by the previous owner. I would say the tallest is a good 10 feet. Take one or all, but you must remove yourself when we are home. I received assistance from Merrifield Garden Center to identify the trees but there's always the chance I have the wrong.
