Audi A6 Power leather seats -[not connected to power tough] - I got these to use in my muscle car project, but will go with custom racing seats instead.

Driver side has leather wear, but support/padding is almost like new -firm . I think the side air bags are still in them - not sure .

Not going to try to connect it - it might deploy the AB's.

Looking for a possible trade for late model Dodge Charger power bucket seats - pls send pics of the seats you got. Thanks.
