Casting Improv Actors/Actresses for an experimental feature film - no script.  
This is a three day shoot (full day) - Pay is per day.

What the film is about depends on the talent casted. You can be male or female, any look, any age.  
The concept I'm playing around is two people stuck in a room as an active shooting is going on.

If you are good at improv and are interested in this. Please respond with a few pictures, resume and how your schedule looks like for July.

Thank you.
