There is a lady who advertises here on CL as a cheap vacation guide/hotel transporter/taxi/private tours... Do not use her!!! She is not reliable and will drop you as soon as she has another group who will pay more.

I contacted her "Diana Kuznetsova"

She was supposed to take us back and forth to the airport. She did pick us up but then right before she was supposed to take us back to the airport she texted to state that she booked a tour that paid more and could no longer to take us back to the airport. So at the last minute I was stuck spending my last day on vacation looking for a taxi.

I am a business owner and you should NEVER treat a customer like this.

So do yourself a favor and don't use her. I ended up using start taxi for the return trip to the airport and their prices were fair and they showed!
