Hip-Hop-ers &amp; Rappers - need guitar to make your tracks jump?

Producers - need a pro guitarist to cover all your needs &amp; make your songs fresh &amp; current?

Song writers - need that special something to make your track radio ready?

I am a PRO level session guitarist with loads of experience & top notch equipment. I can record at your place or in my ProTools 11 fully equipped studio. I have done tracks as far as FL & CA via the Internet and just finished a track for "The Beach Boys" new album. I have worked with James Jamerson Jr (Michael Jackson, Chaka-Chan, Bruce Springsteen), Mark Byerly (Motor City Horns, Silver Bullet Band) "Huff" (Temptations, Black Eyed Peas), Hatch, Quest McCody, Ren-Cen, and more.

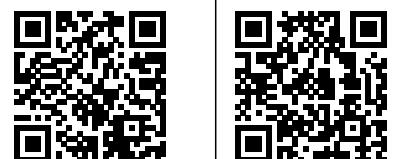

My rates are very competitive and the quality is top notch... usually around \$50 to \$75 per song!

Please respond via email with the subject "studio guitarist" so I know it's not spam & I will reply ASAP.

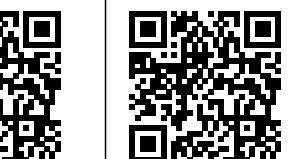

Look forward to hearing from you,
