Hi, there we are a hard working family looking for a 3+br home in the south metro area that take dogs of ALL BREEDS. We have two pitbulls that are family and people trained they are raised and around children from 3-14 will let owners meet them and understand them. We are a clean and respectable family that have great references been at are place now for over 8yrs rent on time with no issue. I understand people worries about the breed of dog we have i had mine then got another one to protect my family not fawn of guns in the house do to underage children. Putting this out there in hope that someone will understand the breed and give a chance to my family. Dont have to worry about yard work or up keep thats what i love to keep up. We do have renter insrance to.. We just dont want are responsible hard working family looked over or jugde by are animals we have. So if there is any places out that is willing to rent to us please let us know please. To those who has read this thank you.

Thank you for reading and understand where we are at looking for a place with are dogs. Please understand they are not bad dog its just bad OWNERS who make these breeds look like vicious and dangerous. Please know they are not crazy dog like they are made out to be. Thank you
