Music amp Post Audio Services Great rates (Everywhere)

Location Florida https://www.genclassifieds.com/x-375664-z

In need of professional music or post audio services at reasonable rates?

I have been providing Music & Post Audio services for the last 14 years and handle all the work myself, so there's no overhead. I am a certified and accredited Audio Engineer, Sound Designer & Music Supervisor who has provided services for 50+ feature length and short films including Academy Award & Golden Globe winning films, Emmy awarded television shows, commercials, radio spots, award winning web series', iOS games, trailers and GRAMMY awarded recording artists. I also record all my own sound effects and have acquired quite a large library over the years. If I don't have a sound I need already, I will design it.

I provide ALL post audio services, which includes, editing, mixing, sound design, Foley, noise reduction & restoration, music supervision & a number of deliverables, for just about every platform available. I also have some of the most competitive professional rates in the U.S. and will always go above and beyond to work within a client's budget no matter the size or deadline of the project at hand. My body of work and recommendations will confirm.

If you want your audio to sound as great as it possibly can, feel free to contact me anytime to discuss rates, services & your project further.

Thank you!
