

Paying cash for general plumbing remodel work (Woodbury)

Location **Minnesota**
<https://www.genclassifieds.com/x-375722-z>

Looking to pay cash for assistance with remodeling the basement bathroom of my home and converting adjacent room into bathroom.

Work will require extensive plumbing skill. Basically I have two rooms open to the studs and down to the concrete, one of the rooms has a shower, toilet and sink, the other is totally open. I need the toilet, shower and sink moved in one of the rooms and a new roughed in toilet, shower and sink set up in another one of the rooms.

If able, I'd also like to hire services to frame in and install new 6 foot bathtub.

I will pay in cash and purchase all materials. You will need tools to complete the job (preferably even jackhammer to break up cement - it's a 4" slab).

Apart from the bathtub, which I mentioned needs to be framed and installed, I'll do all of the final work - installing toilets, vanities, sinks, etc.

I'm available all day today if you are able to come out to bid. Looking to get started right away (even today, if)
