This has been a very great car. It has been well taken care of and rides like a champ! It has a clean interior, CD player, POWER windows, locks and doors. It does not have no transmission or engine problems, also there are NO leaks. It has 141K miles and many more to go. I am selling it because I need the money to take care of bills and other expenses. I am letting it go for \$2500. If you are interested, give me a call or text at the number above. Do not send.
