We do not know his exact breed)

We are looking to re-home this loving bunny. We took him in January 2015; he was abandoned in a parking lot. We do not know his exact age, but we believe he is a little less than a year old. When we took him in he did not have any health or behavioral issues. He is not neutered. He was slightly underweight and now has now maintained a healthy weight. He is very friendly and loves attention. When we took him in he was already liter trained. It seems that he may have been a house bunny, but we do not know anything about his past. We would like to see him find a loving family that has time to care for him.

He does not come with any supplies.

We do not provide transportation to your residence. However, we will meet at a public location so that it is safe for all parties involved.
