My philosophy of Childcare:

My daycare will offer an environment for children which will encourage growth and learning at his or her own pace. With warmth and understanding. I will build a strong foundation for each child to be independent, self-confident, socially, and cognitively ready for the future.

My daycare is designed to

Maintain quality care in a child life through consistent care giving.

Advise of potential problems in physical, intellectual, or emotional development.

Promote effective communication between the parents and myself.

Provide a healthy, happy, loving atmosphere for each and every child.

Communication between the parents and me the provider is very important. i always like the parents to know how their child or children are doing during the day at my daycare. I like to keep parents updated on how their children play with other children and their learning skills are going.
