Hello, my name is Jasmine Dennis I am in the middle of opening my very own DayCare center that has been postpone due to us needing more capital to finish up the specs in the building, because of that I've decided to reopen up my in home daycare for awhile. I have over 4 years experience in the daycare field, Trained and Certified in CPR & First Aid, SUIDS and Traumatic Head Injury, with ongoing education in Early Childhood Development, Nutrition and Business. I have kids of my own so I know how hard it can be to find affordable and safe child care. I do not only provide care for your child I am also big in educating children, I believe it's never to early to start learning. As we have fun we will learn curriculum to brighten and prepare your child for school. We provide breakfast, lunch and snack. Once our DayCare center is open you will receive a 10% discount. We have openings for 12 months to school ages.

Please call for prices
