I studied Commercial Art/photography at Minneapolis Vocational and later, post-graduate at M.T.I. I have many years of experience and I can probably fill your graphic needs. *I studied photography and can take some decent photos if needed but, I'm more often an artist than photographer. I do photo editing and restore messed up logos so, if you have a photo you like except, _ _ _ _ _ , I can fix that for you. I can also apply interesting effects to photos.

Whatever graphic need you have,.... I'll be glad to help. Got a limited budget? No problem... let's talk. I charge for materials if any are required but, if it's all done online the cost of my time and talent is all you pay for and that's negotiable.

I guarantee satisfaction because, if you know what you want, I prefer to bring your ideas to life. If you're not sure what you want, let's talk about it. I can come up with some ideas.

If in the future you choose a different, more expensive artist for your needs, that's fine.

Remember.....

for Christmas, birthdays, weddings, anniversaries, or no reason at all, a fine work of art (sculpture or painting) is a great gift that can last for generations. If you email please, put art in the subject line.

If you call, I don't respond to texts.

Original art looks better before conversion to jpeg for the internet but, more examples are available upon.
