Whether you are planning a wedding, bar mitzvah, graduation party, birthday party, reunion, BBQ, company function, charity event, car show or any type of event, Grooves Entertainment Mobile DJ's will help make your event a memorable one.

Having a DJ is much more than just having music. A professional disc jockey knows how to keep your guests entertained while making sure that your event progresses smoothly from start to finish. Not to mention, having an emcee who can work in sync with your vendors is essential.

Grooves Entertainment Mobile DJ's provides quality, family-friendly, affordable DJ services for all event types such as corporate functions, large sporting events, car shows, weddings, parties, parades and more. Our expertise allows us to accommodate any situation and crowd. We can help to make your event a fun and memorable one. We also work with your other vendors to ensure that the night runs smoothly with as little hick ups as possible. When you hire us you are not just hiring us to play music. In the weeks and days leading up to your event, we will be researching music selection, preparation for your event and our knowledge to perform.

In addition to our dj services we offer additional services for your event such as uplighting, dance lighting, and ceremony music just to name a few. We now also offer FREE SMS Song Requests with all of our services.
