
Here some reviews: Before leaving for tour, our van was broken into and was left inoperable. We turned to Fabien to rent a van and couldn't have been happier with the experience. The van he rented to us drives like a dream and is extremely comfortable for a 4-piece band with plenty of equipment. The rate he offers is very reasonable.

Fabien also provided great service while we were on the road, promptly answering any questions we had regarding the van. I'm even considering selling our van and renting from Fabien in the future instead! If you're wondering if you should be renting or purchasing a van, go with Fabien's services. It was definitely worth it!

I'm a french tour manager of the "African Pop" band Dobet Gnahore and we had the chance to come and tour in the USA in november 2011 (from North Carolina to Illinois passing by Pennsylvania, Ohio, Minnesota...). Everybody who belongs to the industry knows how big is the hassle to find a proper road transportation service solution for touring in the US... Luckily enough we found Fabien!

Not only his rates are interesting, but Fabien himself delivered the van we hired to Charlotte (from Chicago!) where our tour started. While on the road, he constantly liaised to insure everything went fine with the vehicle, which is much appreciable. The van (Ford) is spacious, well equipped (DVD and iPod player) and most of all, quite secure and safe to drive.

In a nutshell, Fabien provided with an excellent service, bringing a warm human and friendly touch to the business. I evidently highly recommend him to anyone looking for a vehicle to go around the USA.

Ben Blanpain

Tour Manager / Event Coordinator / Journalist / DJ and Radio DJ

Rented Fab's van twice now - once down to Austin, TX for SXSW and just this past weeknd down to KC and Lake of the Ozarks - Great van, tons of room and easy to drive. We will certainly look to rent from Fab in the future as he keeps the van well maintained. GREENSUGAR

Fabien provides a great service at a great price. His van is a late model Ford in very good condition, clean inside and out, with comfortable captain's chairs, a DVD-equipped flatscreen TV for the passengers, and plenty of room for gear in the back (we used this van for an 8-day tour with a 6-piece band). Instead of trekking out to a rental place at O'Hare, you can pick up this van in the heart of Wicker Park, and as long as you provide everyone's drivers licenses in advance, you don't have to pay for additional drivers like standard car rental outfits. The standard day rate (which includes insurance) is very reasonable, and he'll cut you a deal if you rent for 5 days or more. Fabien provides a comprehensive contract in advance, with everything well explained, so there are no surprises. We highly recommend him for any bands needing to rent a tour van.
