This GTO has sat for the better part of forty years, tucked away in a Barn on some old farmland just outside of Kansas City. I do have the PHS for it and this is a TRUE GTO, 389, Tri-Power, four speed car. An original Nocturne Blue car. The body is completely solid and rust free. Original floors, trunk, trunk drops, rockers, etc. It is all original and straight. So on top of being a well optioned car, this is also a car that is not going to require the typical sheet metal replacement thus saving whoever ends up owning it, 10k+. I do have the drive shaft as well as a correct 64-65 Tri Power intake but I do not have a motor or transmission. The interior is complete. I do have a clear title for this GTO. The other GTO's within the barn have been sold (66 & 68). If you have any questions or concerns, please feel free to call or text.
