Serious inquires only IF YOU SEE THE AD THEN I STILL HAVE IT., PLEASE DON'T WASTE MY TIME AND YOURS ASKING ME IF I STILL HAVE SOMETHING UNLESS YOU ARE SERIOUS ABOUT PURCHASING IT....

This is a massive 1980s Vintage Pioneer SX-9 champagne-finish computer controlled AM/FM stereo receiver. Rated 125 Wpc @ 8-ohms. This one works great; except the displays seem to not show up as brightly as they should, but they function normally; Pioneer classic! This deck weighs about 33 lb and it was probably made in 1981-82
