With some careful consideration i am looking to find a new home for my Blue and Gold Macaws. Due to an up coming change in circumstances i will no longer be able to give them the attention they need. They are approx 8 months old and were born from the same clutch. One is stupidly tame, loves car rides, loves cwtches and tickles, loves to be played with, loves to be held like a baby and just loves human interaction. The other, He has his own personality. Loves cwtches, loves lots of attention. He doesnt like to be held like a baby tho, ive tried. He is a handsome fella and just loves lots of attention. Both have never bitten and loves the kids (got a 4yr old boy up to teenage kids) they are not fussed by my dogs either. They have both been clipped. They have a large double cage which can be spiit into 2 cages with a divider. They are never in the cage, i have taken the top off (couple of bolts) so they have a choice. They are free to roam parrots. They have a extra large java tree and some toys. They are fed a great diet of fruit and veg, pulses and parrot seed. They have there calcium supplements and vitamins. It is a very sad sale but for there.
