Newly renovated, 5br 4 full bath home located 12 miles north of 695 and 95N. This house has brand new stainless appliances and granite countertops in the kitchen and in all 4 bathrooms as well. It has a large dressing room off of one of the two master bedrooms and a 24x14 gym in the lower level. The furnace, A/C and well pump have been recently been replaced. This house needs absolutely nothing. Outside there is a 4 season livingroom/cabana complete with a gas fireplace and flat screen tv next to the over sized swimming pool. There is also an outside kitchen complete with hot and cold water plumbing and a full size fridge. The house is contractor owned and there is too much more to list. Check out the enclosed pictures and you will see that there is nothing left to do but entertain or chill in your very own secluded retreat. Great for children of all ages, and enough room for guests or In-Laws to have their own private space.
