

Landscaping for Motor

Location **Missouri** https://www.genclassifieds.com/x-376441-z

I am seeking someone who is willing to move a large pile of dirt that was put there from pool installation. Also, need someone to bring enough rock to put all around the pool. I have an old school 350 bored 40 over motor. Eagle rods, eagle crank, clevits bearings, speed probe pistons, oil pump, all gaskets included. Plus, pro comp aluminum racing heads. Engine is balanced. Engine stand and transmission included. Work and rock must be comparable to the dollar amount put into the motor. (\$3)
