Spring is upon us, which means projects need to be done. Which requires time, a valuable commodity which I know is lacking most of the time so I am here to help. My team specializes in finish work and any renovations whether major or minor. We currently handle the majority of the renovations for our disabled Vets here in Idaho and we are always eager to meet new people and see how we can make their lives more convenient with innovative new designs and ideas.

If you find yourself toying with the idea of a fresh living space or know of a project you might find overwhelming, call us... We are Natural helpers and currently transitioning half of our company into a new company called SilverFire Construction which will specialize in construction projects! We have serving the Treasure valley for three years now, and have loved the journey we have had with everyone we have had the pleasure of meeting along the way, thank you for all the support and business! We wouldn't be where we are today if it wasn't for all of you, so thank you!

We are here to help you take care of anything you need. We excel in finish work!  
We are prompt, professional contracting firm at your service; we also happen to be the friendliest guys you'll ever meet.

So if you are in need of help getting any of our honey do's done or any major renovation or construction, go ahead and give us a call. No job is too big or small.

My name is Chris, and my team is offering our services and expertise in maintaining your home and garden. We want to help you with anything you may need. We make it our priority to ensure you have a beautiful home to come to.

I grew up on a farm, then served in the military on a search and rescue team for six years during all of our conflicts in and out of the middle east, and know the value of hard work; and how it is lacking at times. We promise to provide you with the utmost efficient, effective, and pleasant service. Your needs are our needs, we will put you first and foremost.
