ToBeReal (tobereal.org) is an emerging nonprofit seeking to redefine mental health. We are seeking writers to contribute to our blog and participate in our ongoing development. We want all types of writing so if you think you have a story, article, or poem that relates to mental health then we want to hear about it! This is an unpaid position but a great opportunity to have complete control over your work and participate in the development of a social movement. If you are interested please email me a short writing sample and some ideas of what you would like to.
