I have two full grown cats that are sweet, gentle and the best of friends. I would prefer that they stay together if at all possible. They are indoor cats with front claws removed. The multi-color one is 5 years old and I'm guessing the black one is 8-10 years. Both were rescued strays. Unfortunately, I am relocating and cannot have them at the new place. Only serious inquiries please, as I need to find a good home for them asap. If interested please text
