My whole life I was self concious about my skin. I've been to quite a few dermatologists who've perscribed me different medical face cleansers and lotions that never helped. But I heard of Rodan & Fields from a friend and it worked wonders. It did things my dermatologist couldn't do for me. I use it every day. I even use it on my baby instead of baby lotion. They have all different products for different things. Such as acne, dry skin, dark spots, even wrinkles (which we all try our best to avoid). But if your interested in improving your looks contact me and I will be happy to help you in anyway I can. 732 five9nine
