Basic landscaping change (Bridgewater)

Location **New Jersey**
https://www.genclassifieds.com/x-377066-z

I am looking to get rid of the grass and have mulch instead. Please see the photos for specifics. Picture one is my house now, and second one is what I want it to look like with more description. One thing which is not seen is my mailbox which is in the very corner of the picture. Currently there is a small furn tree there, which I would want taken out.

Here is the link to the stones I would want: http://www.homedepot.com/p/Pavestone-3-in-x-10-in-Sierra-Blend-Concrete-Wall-Block-80777/202274512?MERCH=REC-_-PIPHorizontal1_rr-_-204501708-_-202274512-_-N

Please give me a price quote for the whole job with everything I want as well as the individual components:
Trimming two plants
Delivering and laying out stone outline/edges (only one stone height)
Covering grass and putting all the mulch

Also, please tell me when you can start on this project.
Thank
