Local food blog needs writers

Location **North Carolina** https://www.genclassifieds.com/x-377170-z

A local food blog, Eat It North Carolina, is searching for writers to revitalize and upkeep the blog! In other words, you would be in charge of owning the blog and the relevant social media. I could not continue the blog because I have moved out of NC, but would like to see the blog continue to grow and succeed. This is a great opportunity for students studying journalism and/or communications. It is also ideal for someone with advertising experience. The amount of money you make is up to you based on the ads you run on the blog. Please email your resume and let me know your idea for your first blog post.
