I have two guinea pigs about 5 weeks old now I am looking to rehome. I am not good at sexing guinea pigs this young but I believe they are both males. Last December I bought two guinea pigs that were supposed to be both males however one turned out to be a female and ended up having two babies. I had to get rid of the dad so it didn't happen again but I am keeping the mom and now I need to rehome the babies. I am asking a small rehoming fee of \$10 each for the babies to ensure a good home and would really like them to go together since they are bonded (sorry but I can't give the cage with them since I need it for the mom). Serious inquiries only!
