I have a sweet, female beagle puppy. She's 6 months old and has had all her shots and was spayed last month.

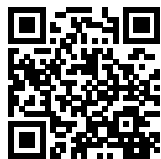

She and my dog do not get along and she would do good in a home as an only pet. She is trained on potty pads and loves going for walks. She pulls due to excitement so we use a harness. She has lots of energy and loves to play, but sometimes doesn't understand when to give up when playing with our dog who is easily tired. This has been the main issue and we've separated the dogs when things get too heated. She does wonderfully in her crate at night and doesn't cry or try to get out. She is sweet, but definitely a handful.

I need to know she'll be in a loving and caring home.
 I am asking a rehoming fee of \$100 to ensure she goes to a loving family who can afford to care for her the way she deserves. I will also need to meet you and I will ask that you keep me updated on how she's doing. It deeply pains me to do this. She is a great girl when she's with people, aims to please.
 Thank.
