

# Engagement amp Wedding photography FREE Montage Studio Album from 495 (Clev

Location **Ohio**  
<https://www.genclassifieds.com/x-377304-z>

Congratulations you smart CL shopper! You want images to celebrate your engagement! And you want them in a custom album to show off! You have found your answer! Affordable, fully edited, spontaneous real life Wedding photography with FULL UNLIMITED PRINTING RIGHTS FOR YOU utilizing Hollywood style lighting at your reception for vivid rich colors (ever notice their reception images are missing as examples??!!) from an experienced real photographer INCLUDING a custom designed Premium Studio Quality Montage Album in your specific style and in your exact colors. The #1 question we get is, "Why are your prices so low for such great quality?"

The answer is twofold. First, we love to keep busy doing weddings. It is our passion and we would rather shoot a wedding than just about anything. Secondly, we have virtually no overhead because we have no storefront and we keep our marketing costs minimal by utilizing business cards, Craigslist and word-of-mouth from those who see our amazing Montage Albums.

Our Albums are made with archival real photographic paper utilizing colorful enhanced graphics and tonal-rich black and whites to amaze your friends and family for that Big Day you have been planning your entire life.

Images are optimized and custom cropped for maximum visual impact. This FREE album is typically a \$500 (if not much more \$) value at typical studios. Brides often comment they cannot believe how good these images look because the images just seem to jump off the page and they have never seen

anything that looked so good at any price.

and is so many people being the busy photographer, we are so busy that we cannot do the same for all the clients that want to book, we have decided to offer our customers a smart and affordable way to get their wedding photos. As we are a small business, we have a very different setup as we have a camera to effectively give you a constant backup as well as another perspective. Redo insurance? Do you really think your guests will return due to failure of the photographer's only camera? We have all the extra lenses and lighting and studio would ever want.

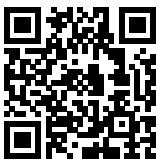

When we look at the typical wedding photography samples we say to ourselves, "Are you kidding? They actually got people to pay for this crap effort?" Pitiful underexposed images, harsh on-camera only lighting, deep dark shadows, non-existent image enhancement, lousy composition and weird color

---

balance are their norm.

Their albums? Maybe some loose 8 x 10's vs. our custom designed for you Montage Album. Our work has won blue ribbons against other professional photographers and taken us all over the country. They are, "portfolio building??"

Our complete packages with shooting, editing, High-res DVD for you, and Montage Album for you range from \$495 to \$695. Most of our bookings now come from referrals because there is no better salesperson than a satisfied client. After all, over 90% of the couples who come to see us, end up booking with us. Don't wait and let another bride book us on your day, contact us today at [www.glassburnphotography.com](http://www.glassburnphotography.com)

A few distant places we have been hired to do photography: Boston, Los Angeles, Denver, Syracuse, New York, Seattle, San Francisco, St. Louis, Chicago, Miami, New Orleans, Salt Lake City, Las Vegas, Newfoundland, Quebec.
